Hi Roberto –

I am back in the office. Do you want me to take care of this or is your staff already addressing it?

Thanks. Kate

Hello Roberto,

I received the below public inquiry from the R9 library earlier today. Kate is not in the office today, but I'm wondering if you or someone on your staff may be familiar with situation regarding a cesspool in HI described below? Please keep Kate and Lisa informed if you or your staff has a conversation with Mr. 

Thank you,

Audrey L Johnson

Hi Audrey,

I see that Kate is out of the office right now who I would normally send an inquiry about cesspools in Hawaii. I am hoping you can contact this person or have someone contact him about his situation regarding a neighbor's cesspool. The email says that the EPA is handling it.

Please keep us in the loop so we can close the matter on our end.

Thanks,

Lisa Wheeler, MLIS

Comments: I contacted the Hawaii Department of Health 12/11/17 to request an inspection of waste from my neighbor's cesspool leaching and percolating on my property about 15 feet from the property line. The inspector from the Hi DOH advised me today that my neighbor will have to replace his cesspool with a septic system because his cesspool was used for 2 residences and that the problem was being handled by the EPA. My concern is the waste that is showing up on my property and when this will be contained. Please contact me ASAP regarding the timeframe involved to resolve this matter.
